

BETTER METHODS NAMED MASTER DISTRIBUTOR FOR UNDERHILL GOLF IRRIGATION PRODUCTS

CARINGBAH, NSW

Better Methods Pty Ltd, an established golf products master distributor, will now represent Underhill International and will distribute that company's extensive line of water-efficient turf equipment to the Australian golf market. The announcement was made by Ed Underhill, president of the California-based company.

Better Methods, which has been in business since 1962, is headquartered in Caringbah near Sydney, and operates a second warehouse in Melbourne.

"The Underhill - Better Methods partnership will open many new opportunities for both companies," said Andy Knox, general manager at Better Methods.

"Better Methods has the widest distribution network to reach every corner of the diverse and widespread golf market in Australia," said Knox.

"All major supply companies have access to the Better Methods inventory, which features our in-house proprietary brands and select specialty lines, like Underhill's expanding roster of turf care equipment," he said.

Among the many featured products from Underhill that will now be available at Better Methods are:

FCI Profile™ solid metal golf rotor nozzles, which have been proven to save water when retrofitted to Toro® and Rain Bird® golf heads (testing conducted by the Center for Irrigation Technology, California State University, Fresno, CA).

LiquidPro™ and PelletPro™ applicator guns for wetting agents, fertilizers and micronutrients;

CoolPro™ professional turf cooling nozzles for greens;

Precision™ solid metal fixed spray nozzles for syringing sports fields;

Magnum™ solid metal variable spray hose nozzles;

The Tracker™ portable irrigation carts;

RollerPro™ portable sprinkler bases for supplemental watering;

DeepDrip™ tree watering stakes;
Gulp Series™ water removal suction pumps;
HoseTap™ solid metal hose adapters and
Nastek™ early stress detection glasses.

Underhill International is headquartered in Lake Forest, CA, and has been in business for more than 25 years. For more information about Underhill products or Better Methods, visit the websites at: www.underhill.us or www.bettermethods.com.au.
