

Soil Surfactant Polymer Resin Blend

Principal Functioning Agents

28.5%...Alkylpolyglucoside,
poloxalene,
poly (2-propenamide) blend

KEEP OUT OF REACH OF CHILDREN

WARNING

Hazard Statements

Causes serious eye irritation.
Causes mild skin irritation.

Precautionary Statements

Wash thoroughly after handling.
Wear protective gloves/eye/face protection.

First Aid

Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes.

•**H2O MAXIMIZER** is an innovative blend of surfactants that enhance water infiltration through repellent thatch for more uniform soil moisture.

•**H2O MAXIMIZER's** polymer resin enhances water adsorption to soil particles for increased soil moisture to the plant rootzone.

•**H2O MAXIMIZER** maximizes plant available water. Plant available water is that portion of water holding capacity that can be absorbed by the plant.

Directions For Use—Application Guidelines

Use **H2O MAXIMIZER** in a scheduled water management program throughout the growing season to improve irrigation efficiency resulting in shorter irrigation cycles while maintaining turf quality.

Turf Spray Applications: For best results on highly maintained turf such as golf greens or sports fields, apply 10 fluid ounces (300 ml) of **H2O MAXIMIZER** diluted in 1 to 2 gallons (4 to 8 litres) of water per 1,000 square feet (100 square metres) monthly.

For Irrigation Injection or Large Area Application: Inject 16 to 24 fluid ounces (480 to 720 ml) per acre (0.5 hectare) on a monthly basis throughout the growing season.

For Conventional Tank Mix Spray Applications on Fairways or Commercial Lawns: Mix 30 fluid ounces (900 ml) of **H2O MAXIMIZER** diluted in 40 gallons (150 litres) of water per acre (0.5 hectare). Reapply monthly or as needed throughout the growing season.

New Seedlings – Stand Establishment: **H2O MAXIMIZER** may be applied with initial watering cycle following a new turf seeding to enhance soil moisture and improve water infiltration. Use at a rate of 5 to 10 fluid ounces (150 to 300 ml) diluted in 3 gallons (12 litres) of water, per 1,000 square feet (100 square metres).

Soil Media Applications: For enhanced hydration of soil, peat or bark media use 5 fluid ounces (150 ml) of **H2O MAXIMIZER** diluted in 2 gallons (8 litres) of water applied to 1 cubic yard (0.75 cubic metres) of media. Add **H2O MAXIMIZER** to water and stir contents.

For Difficult to Wet Media: Use 10 fluid ounces (300 ml) diluted in 2 gallons (8 litres) of water applied per cubic yard (0.75 cubic metres).

Storage and Disposal

Storage: Keep container tightly closed. Store in a closed container. Store in original container only. Store in a well-ventilated place. Keep cool.

Disposal: Triple rinse, empty rinse water into spray or stock tank. Dispose of contents/container in accordance with local/national regulations.
